

## **Quarry Theatre Plan Notes (11-01-11)**

The AutoCAD plans are saved as 2000LT though they can be made available in earlier release versions on request.

We are happy to send hard-copies, unless otherwise stated these would be at 1:25 scale.

Our policy is to always draw at full-size.

Our drawings generally follow the ABTT CAD standards with layer names, colours and to some degree linetypes conforming. Lineweights however are restricted to 0.15, 0.2 and 0.25.

The PDF plans are taken directly from the basic CAD drawings.

These will print at 1:200 scale on a sheet of A4

PDF's with information from other layers (LX or Sound for example) can be created on request.
