# Anniversary

**Anniversary** is a piece of contemporary theatre created by a group of older performers. Theatre that crosses boundaries effortlessly between performance, contemporary dance, music and personal stories.

Join us to share the ordinary and extraordinary moments that make up every human life: stories to make you smile, laugh or even shed a tear. We aim to make an important connection with our audience – through the common and unique experiences that make us who we are.

## What does a dementia-friendly performance involve?

We work closely with people living with dementia, consulting them on the changes needed for the show and front of house environment. We consider everything from sound and lighting cues, stage action and seating plans, signage and refreshment service. We offer extra flexibility when booking seats, so if you need a little extra personal space you can request the seat next to you remains unsold. A quiet room outside the auditorium is available if you need some time away from the crowd. If there's another aspect of the theatre experience we could address to make a positive difference for you, please get in touch.

This performance is open to everyone who embraces the idea of a dementia friendly community where people living with dementia are supported and valued.
